# AMNA RASHEED

UNDERGRADUATE IT STUDENT | FRONTEND DEVELOPER

amnar1208@gmail.com | 076 319 0565 | https://github.com/Amna-Rasheed

## PROFILE SUMMARY

As an enthusiastic and committed student, I have a profound interest in web development. My journey in this field is fueled by an ambition to develop effective, agile, and innovative web applications. I am looking forward to learning from a web development internship and contributing meaningful, innovative work to my workplace.

## PROFESSIONAL SKILLS

Communication          Attention to Detail
Critical Thinking      Teamwork
Writing

## TECHNICAL SKILLS

HTML5 | CSS3           JavaScript
Firebase              Laravel
Figma                 Flutter
React Native          Kotlin

## EDUCATION

**BEng in Software Engineering**                                     2022 – 2025
Asia Pacific Institute of Information Technology
**GCE Advanced Level**                                                       2022
Ilma International Girls' School

## PERSONAL PROJECTS

**ThriftHaven – Online Mobile Thrift Store**               January , 2024 - February, 2024
https://github.com/Amna-Rasheed/Thrift-Haven
- Developed Thrift Haven, an innovative mobile app serving as an online thrift store, utilizing Kotlin for the frontend and Firebase for seamless backend operations.
- Implemented key features, such as access to camera and contacts, proximity sensor integration, and versatile mode options (dark/light), showcasing proficiency in mobile app development.

**Job.lk– Online Freelancer Platform**                      October, 2023 - January, 2024
https://github.com/zafar-m3n/G3_Job.lk
- Developed key frontend pages for a freelancer system using React.js and Bootstrap 5, as part of my coursework, working as an agile team and following agile development practices.
- Implemented a dynamic job display feature for employers and a comprehensive open job listing page for freelancers.

## PERSONAL PROJECTS

**EquiQuest– CRM Application for Horse Stables**                    October, 2023 – Feb, 2024

https://github.com/Amna-Rasheed/EquiQuest-CRM

- Developed a CRM application for horse stables using Laravel, featuring comprehensive CRUD operations to enable efficient management for admin users, as part of my coursework.
- Designed and implemented a user-friendly interface tailored to the unique needs of horse stable management, enhancing administrative efficiency and data organization.

**EquiQuest– Horse Ride Booking App**                    July, 2023 – September, 2023

https://github.com/Amna-Rasheed/EquiQuest-BookingApp

- Developed a horse ride booking app using Flutter, complemented by a comprehensive design and prototype crafted in Figma, focusing on user-friendly navigation and efficient booking processes.
- Integrated a seamless booking system with real-time availability updates, ensuring a smooth and intuitive user experience for scheduling horse rides.

**Alexandria– Library Mobile App**                    March, 2023 – June, 2023

https://github.com/Amna-Rasheed/Alexandria_Library

- Designed and developed a library app with a focus on user experience, using Figma for UI/UX design and React Native for the frontend, creating an intuitive and accessible digital library interface.
- Implemented Firebase for the backend, ensuring a seamless and efficient data management system for book inventory, user accounts, and real-time updates.

**Ceylontea**                    September, 2022 – December, 2022

https://github.com/Amna-Rasheed/Ceylontea

- Created an informative website about the tea industry in Sri Lanka using HTML, CSS, and JavaScript, showcasing the rich history and cultural significance of the industry through an engaging online experience.
- Implemented interactive elements and responsive design techniques to ensure a user-friendly interface, effectively conveying detailed information about Sri Lanka's tea production and export processes.
